

App Evaluation & Feature Test

A full pass over every feature in the app — confirm it works, rate it, and note anything worth flagging. Fill in one row per feature; use the Observations column for anything that didn't behave as expected.

Before you start

How to fill this in. For each feature, tick whether it works, give it a rating from 1 (poor) to 5 (excellent), and add a short note if anything stood out — a bug, something confusing, or something you particularly liked.

Works? — Yes / Partial (works but with issues) / No / N/A (not applicable / not tested) **Rating** — 1 = poor, 3 = acceptable, 5 = excellent
